

NHS Staff Survey

NHS England worked extensively with experts and stakeholders to develop the right approach to extending eligibility of the NHS Staff Survey to bank only workers.

The People Promise applies to all our NHS people. Supporting our bank only workforce to take part in the NHS Staff Survey is critical to ensuring we each have a voice that counts.

The inclusion of bank only workers in the NHS Staff Survey will help to improve the working experience of up to 420,000 bank only workers and will help influence positive changes that will ultimately improve patient experience and outcomes.

We each have
**a voice that
counts**

People Promise
